My Publications

The screenshot shows a blog post titled "Testing Flutter app in less than 3 minutes" by John Colani, published 5 min read - Dec 27, 2023. The post features a large image of a smartphone displaying a Flutter application with a magnifying glass over it, and the text "Test in Flutter".

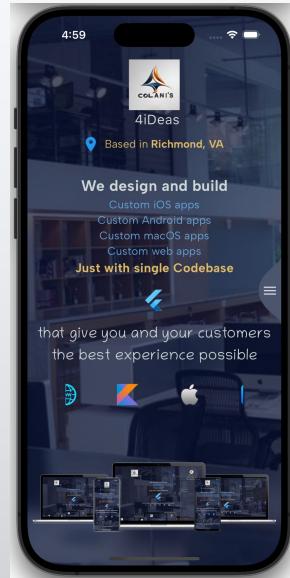

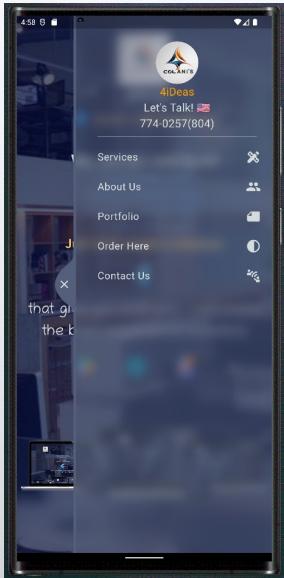

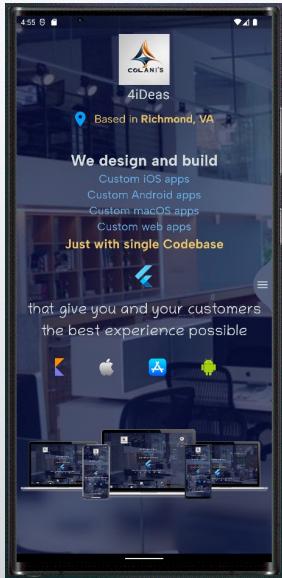

The screenshot shows the pub.dev page for the "auto_scroll_image" package version 0.2.5-dev. It was published 8 days ago and is Dart 3 compatible. The package is tagged as FLUTTER, PLATFORM, ANDROID, IOS, LINUX, MACOS, WEB, and WINDOWS. The Readme tab is selected. The package description states: "A Flutter package for auto-scrolling images. Compatible with iOS, Android, MacOS & Web". The Features section lists:

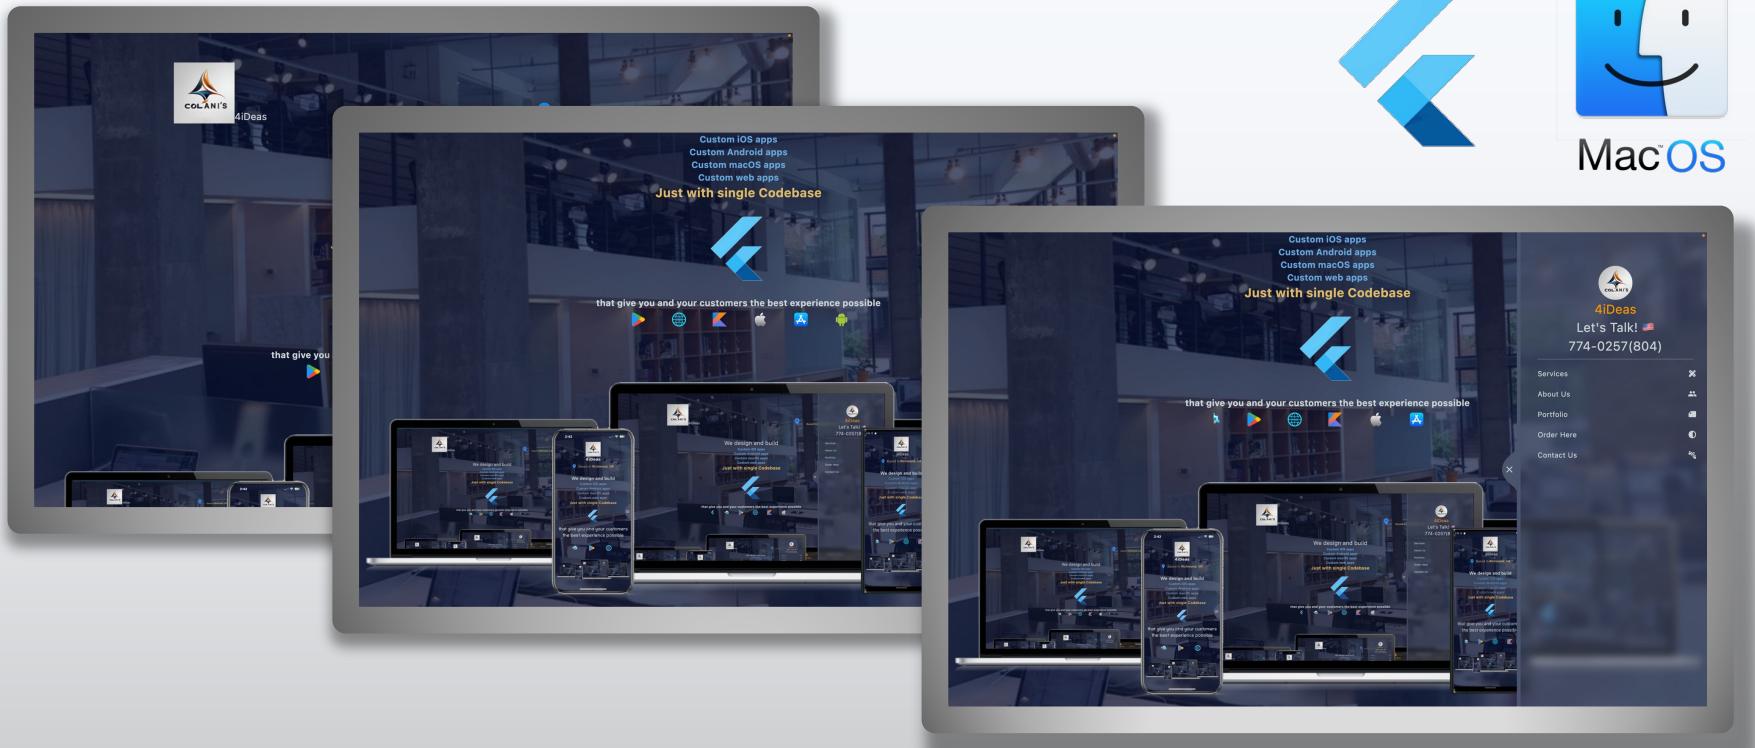

- A Flutter package for auto-scrolling images.
- This package provides a widget for displaying a horizontal list of images that automatically scrolls.
- Users can customize the number of items, item width, and the duration of auto-scrolling.
- For web page take care of width of SizedBox to see image scrolling

The Getting started section contains the text "auto scrolling image". On the right side, there is a sidebar with the following information:

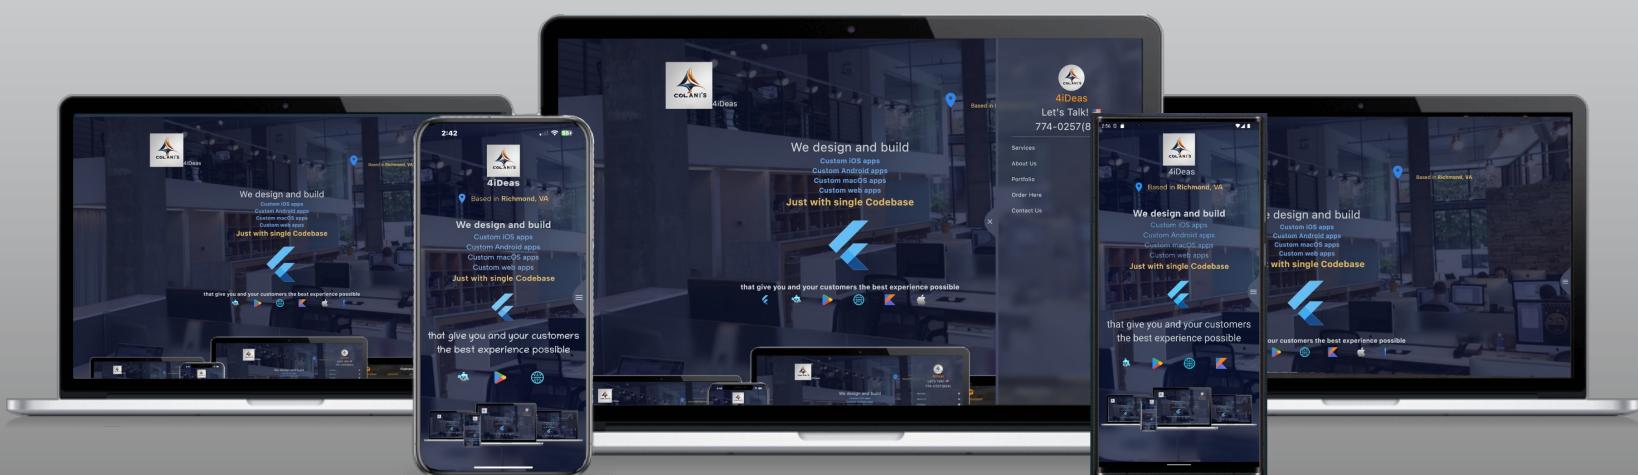

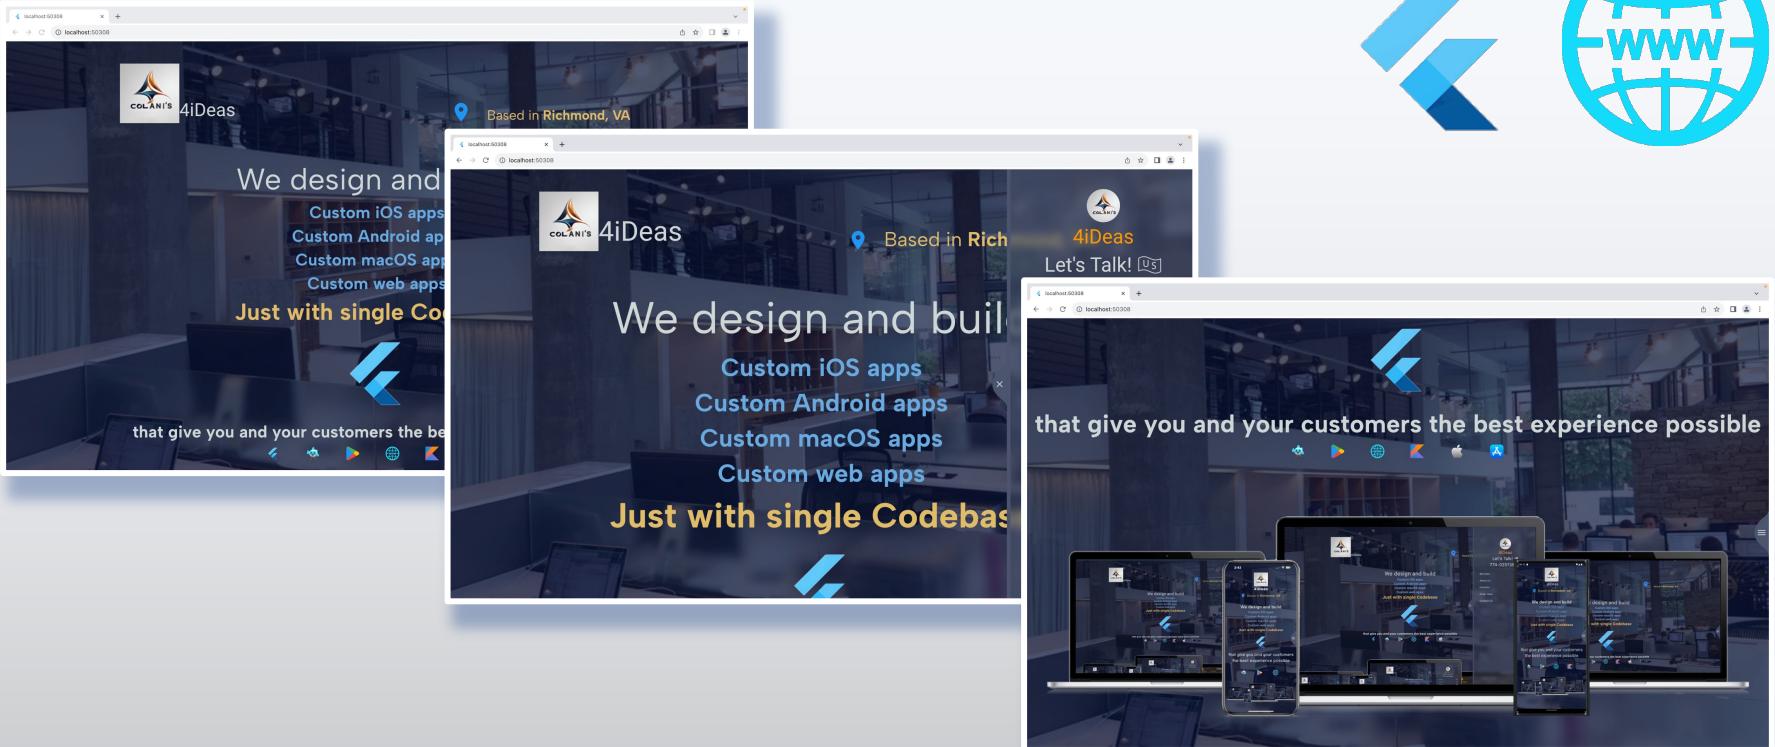

- 0 LIKES | 120 PUB POINTS | 9% POPULARITY
- Publisher: unverified uploader
- Metadata: A Flutter package for auto scrolling images.
- Homepage
- Repository (GitHub)
- Documentation
- API reference

Phillips Industry

PHILIPS

SECURED BACKUP CAMERA

Offers increased backup visibility and safety for drivers and pedestrians:

Creates a new level of situational awareness for increased yard safety.

180 degree view allows for visibility of rear bumpers, doors and over 20 feet behind the trailer.

Allows driver to see docking position and alignment to make maneuvering in reverse easier and prevent trailer damage from hard hits.

Protects trailer owner's assets:

Increased visibility decreases accidental damage during backup, avoiding costly repairs and downtime.

Added functionality when paired with a Phillips Connect Bluetooth Device:

Still image uploads to cloud storage when impact or other extreme events are detected.

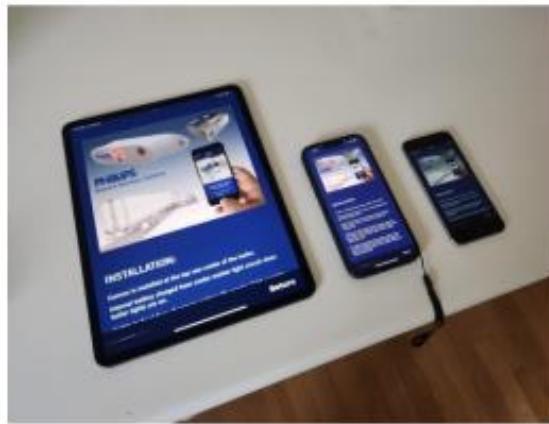

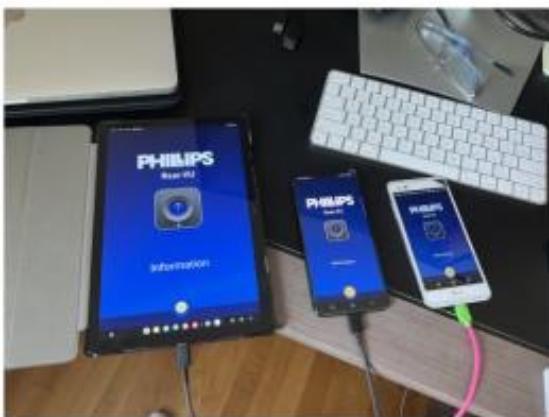

Functional/Diagnostic information provided to telematics to ensure proper operation and monitor driver usage.

Free iOS application works on any iOS device:

Access to streaming backup camera video for ANY truck driver, regardless of company affiliation.

Adaptive algorithm provides list of available cameras to sync to in most likely order to allow driver to easily find the correct camera when there are many nearby.

Absolute Stone Design

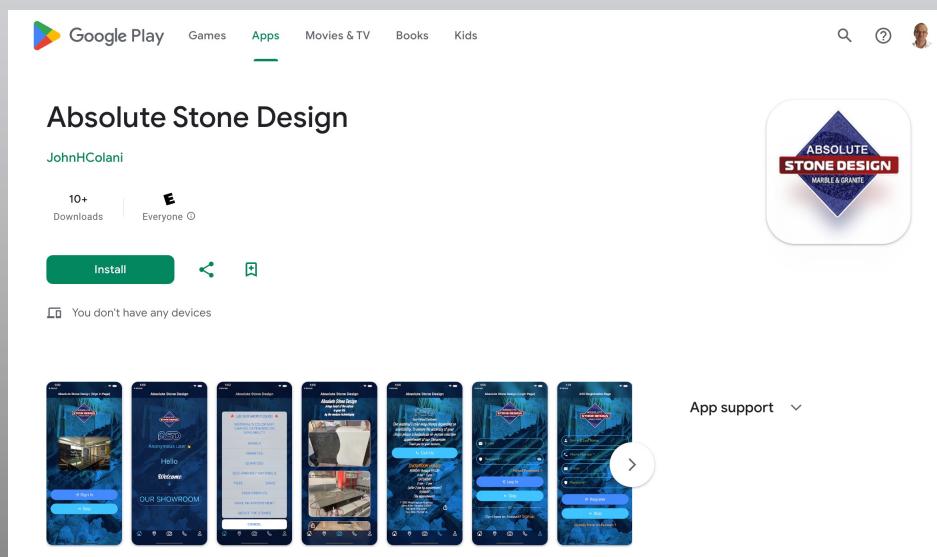

<https://apps.apple.com/us/app/asdusa/id1588331742?platform=iphone>

The screenshot displays the iTunes App Store page for 'Absolute Stone Design'. At the top, there's a large icon for 'ASDUSA Business'. Below it, the app is categorized as 'Business' and designed for iPad. Key details include: Age rating 4+, Category Business, Developer John Colani, Language EN English, and Size 144.4 MB. The main content area shows five screenshots of the app's interface. The first screenshot shows a sign-in page with a blue background featuring a large 'X' and the ASD logo. The second screenshot shows a welcome screen with the text 'Hello' and 'Welcome' and buttons for 'Sign In' and 'Skip'. The third screenshot shows a menu with categories like 'MARBLE', 'GRANITES', 'QUARTZES', 'TILES', 'SINKS', 'EDGE PROFILES', 'MAKE AN APPOINTMENT', and 'ABOUT THE STONES'. The fourth screenshot shows a showroom floor with various stone samples. The fifth screenshot shows a contact page with a map, phone number, and email address.

<https://play.google.com/store/apps/details?id=com.JohnColani.asdapp>

The screenshot shows the Google Play Store page for 'Absolute Stone Design'. It features the developer name 'JohnHColani'. The app has a rating of 10+ Downloads and is rated Everyone. There is a prominent green 'Install' button. Below the button, it says 'You don't have any devices'. To the right, there are five smaller screenshots showing different screens of the app's interface. At the bottom, there is a section titled 'App support' with a dropdown arrow.

Absolute Stone Design

The image shows a Mac desktop with an Android Studio window open. The window displays the code for the `welcome_page.dart` file, which is part of a Flutter application. The code imports various packages and defines a `WelcomePage` widget that extends `StatelessWidget`. The UI on the screen shows a blue-themed mobile application with a background image of a stone wall. It features a top navigation bar with the text "Absolute Stone Design" and a logo. Below the logo is a button labeled "ASD". At the bottom of the screen are three buttons: "Log In" (blue), "Register" (light blue), and "Sign Out" (light blue). The right side of the image shows two smartphones displaying the same app interface. To the right of the phones, there is promotional text and logos.
